### **Independent Auditors' Report**

To the Board of Directors of CviLux Corporation:

#### Opinion

We have audited the financial statements of CviLux Corporation("the Company"), which comprise the balance sheets as of December 31, 2024 and 2023, the statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the financial statements, including a summary of material accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2024 and 2023, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

#### **Basis for Opinion**

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and informing our opinion thereon, and we do not provide a separate opinion on these matters. In our judgment, the key audit matters we communicated in the auditors' report were as follows:

Valuation for slow-moving inventories

Please refer to note 4(g) "Inventories" for accounting policy, note 5 for accounting assumption, judgments, and estimation uncertainty to the financial statement, and note 6(e) for the illustration of the evaluation of inventories.

Description of key audit matters:

In order to meet shipping demands, the Company has increased its stock volume, which requires the management to use its subjective judgment in valuating the slow-moving inventories. Therefore, the valuation for slow-moving inventories has been identified as one of our key audit matters.

In relation to the key audit matter above, our audit procedures were included:

- Understanding the policies adopted by the management in valuating the slow-moving inventories; assessing the historical reasonableness of the management's estimates on inventory provisions.
- Selecting samples and keeping track of inventory movement voucher to verify the accuracy of the inventory aging report.
- Evaluating the appropriateness of management's assumption to determine inventory reserve percentages.
- Recalculating the inventory reserve for the application of the reserve percentages with the inventory aging categories.

#### Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Company's financial reporting process.

#### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient and appropriate audit evidence regarding the financial information of the investment in other entities accounted for using equity method to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Tang, Chia-Chien and Huang, Ming-Hung.

#### (English Translation of and Report Originally Issued in Chinese) CviLux Corporation

#### Notes to the Parent-Company-Only Financial Statements

#### For the years ended December 31, 2024 and 2023

#### (Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

#### (1) Company history

CviLux Corporation (the "Company") was incorporated on March 16, 1990 as a company limited by shares and registered under the Ministry of Economic Affairs (MOEA) of the Republic of China (R.O.C.). The address of Company's registered office is 9F., No.9, Ln. 3, Sec. 1, Zhongzheng E. Rd., Tamsui Dist., New Taipei City. The Company and its subsidiaries (the Company)'s major operating activities are the assembling, manufacture, processing, and trading of connectors used in the electronic industry, electrical machinery, communications, and computer equipment.

#### (2) Approval date and procedures of the financial statements

The financial statements were authorized for issue by the Board of Directors on March 13, 2025.

#### (3) New standards, amendments and interpretations adopted:

(a) The impact of the IFRS Accounting Standards endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The Company has initially adopted the following new amendments, which do not have a significant impact on its financial statements, from January 1, 2024:

- Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"
- Amendments to IAS 1 "Non-current Liabilities with Covenants"
- Amendments to IAS 7 and IFRS 7 "Supplier Finance Arrangements"
- Amendments to IFRS 16 "Lease Liability in a Sale and Leaseback"
- (b) The impact of IFRS issued by the FSC but not yet effective

The Company assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2025, would not have a significant impact on its financial statements:

- Amendments to IAS21 "Lack of Exchangeability"
- Amendments to IFRS 9 and IFRS 7 "Amendments to the Classification and Measurement of Financial Instruments" regarding the application guidance requirements for Section 4.1 of IFRS 9 and the related disclosure requirements of IFRS 7
- (c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Company, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

Standards or Interpretations	Content of amendment	Effective date per IASB
IFRS 18 "Presentation and Disclosure in Financial Statements"	The new standard introduces three categories of income and expenses, two income statement subtotals and one single note on management performance measures. The three amendments, combined with enhanced guidance on how to disaggregate information, set the stage for better and more consistent information for users, and will affect all the entities.	January 1, 2027
	• A more structured income statement: under current standards, companies use different formats to present their results, making it difficult for investors to compare financial performance across companies. The new standard promotes a more structured income statement, introducing a newly defined 'operating profit' subtotal and a requirement for all income and expenses to be allocated between three new distinct categories based on a company's main business activities.	
	• Management performance measures (MPMs): the new standard introduces a definition for management performance measures, and requires companies to explain in a single note to the financial statements why the measure provides useful information, how it is calculated and reconcile it to an amount determined under IFRS Accounting Standards.	
	• Greater disaggregation of information: the new standard includes enhanced guidance on how companies group information in the financial statements. This includes guidance on whether information is included in the primary financial statements or is further disaggregated in the notes.	

The Company is evaluating the impact on its financial position and financial performance upon the initial adoption of the abovementioned standards or interpretations. The results thereof will be disclosed when the Company completes its evaluation.

The Company does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its financial statements:

- Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"
- IFRS 17 " Insurance Contracts" and amendments to IFRS 17 " Insurance Contracts"
- IFRS 19 "Subsidiaries without Public Accountability: Disclosures"
- Amendments to IFRS 9 and IFRS 7 "Amendments to the Classification and Measurement of Financial Instruments" regarding the application guidance requirements for Sections 3.1 and 3.3 of IFRS 9 and the related disclosure requirements of IFRS 7
- Annual Improvements to IFRS Accounting Standards—Volume 11
- Amendments to IFRS 9 and IFRS 7 "Contracts Referencing Nature-dependent Electricity"

#### (4) Summary of material accounting policies

The material accounting policies presented in the financial statements are summarized below. The following accounting policies were applied consistently throughout the periods presented in the financial statements.

(a) Statement of compliance

These financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as "the Regulations").

- (b) Basis of preparation
  - (i) Basis of measurement

Except for the following significant accounts, the financial statements have been prepared on a historical cost basis:

- 1) Financial instruments at fair value through profit or loss are measured at fair value;
- 2) The defined benefit liabilities are measured at fair value of the plan assets less the present value of the defined benefit obligation.
- (ii) Functional and presentation currency

The functional currency of each Company entity is determined based on the primary economic environment in which the entity operates. The financial statements are presented in New Taiwan Dollar (NTD), which is the Company's functional currency. All financial information presented in NTD has been rounded to the nearest thousand.

#### (c) Foreign currencies

(i) Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Company entities at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Nonmonetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for those differences relating to the following, which are recognized in other comprehensive income:

- an investment in equity securities designated as at fair value through other comprehensive income;
- a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; or
- qualifying cash flow hedges to the extent that the hedges are effective.
- (ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into the presentation currency at the exchange rates of the reporting date. Except for highly inflationary economies, the income and expenses of foreign operations are translated into the presentation currency at the average exchange rate. Exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Company disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to noncontrolling interest. When the Company disposes of only part of investment in an associate of joint venture that includes a foreign operation while retaining significant or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, exchange differences arising from such a monetary item that are considered to form part of the net investment in the foreign operation are recognized in other comprehensive income.

(d) Classification of current and non-current assets and liabilities

The Company classifies the asset as current under one of the following criteria, and all other assets are classified as non current.

- (i) It expects to realize the asset, or intends to sell or consume it, in its normal operating cycle;
- (ii) It holds the asset primarily for the purpose of trading;
- (iii) It expects to realize the asset within twelve months after the reporting period; or
- (iv) The asset is cash or a cash equivalent (as defined in IAS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

The Company classified the liability as current under one of the following criteria, and all other liabilities are classified as non current.

- (i) It expects to settle the liability in its normal operating cycle;
- (ii) It holds the liability primarily for the purpose of trading
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) The Company does not have the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.
- (e) Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting shortterm cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

(f) Financial instruments

Account receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a account receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A account receivable without a significant financing component is initially measured at the transaction price.

#### (i) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as financial assets at amortized cost.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described as above are measured at FVTPL, including derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

3) Impairment of financial assets

The Company recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, financial assets at amortized cost, accounts receivable and notes receivable, other receivables, guarantee deposit paid and other financial assets).

The Company measures loss allowances at an amount equal to lifetime ECL, except for the following which is measured as 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for notes and accounts receivable are always measured at an amount equal to lifetime ECL.

Lifetime ECL are the ECL that result from all possible default events over the expected life of a financial instrument.

12-month ECL are the portion of ECL that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECL is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both qualitative and quantitative information and analysis based on the Company's historical experience and informed credit assessment as well as forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 180 days past due.

The Company considers a financial asset to be in default when the financial asset is more than one years past due or the debtor is unlikely to pay its credit obligations to the Company in full.

ECL are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive). ECL are discounted at the effective interest rate of the financial asset.

At each reporting date, the Company assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired'when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than one year past due;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

Except for notes and accounts receivable, the loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is charge to profit or loss and is recognized in other comprehensive income instead of reducing the carrying amount of the asset.

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For corporate customers, the Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

4) Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

- (ii) Financial liabilities and equity instruments
  - 1) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

2) Compound financial instruments

Compound financial instruments issued by the Company comprise convertible bonds denominated in NTD that can be converted to ordinary shares at the option of the holder, when the number of shares to be issued is fixed and does not vary with changes in fair value.

The liability component of compound financial instruments is initially recognized at the fair value of a similar liability that does not have an equity conversion option. The equity component is initially recognized at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortized cost using the effective interest method. The equity component of a compound financial instrument is not remeasured.

Interest related to the financial liability is recognized in profit or loss. On conversion at maturity, the financial liability is reclassified to equity and no gain or loss is recognized.

3) Derecognition of financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or canceled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

4) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

#### (g) Inventories

Inventories are measured at the lower of cost or net realizable value. The cost of inventories is calculated using the weighted-average method, and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses

(h) Investment in associates

Associates are those entities in which the Company has significant influence, but not control or joint control, over their financial and operating policies. Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition less any accumulated impairment losses.

The financial statements include the Company's share of the profit or loss and other comprehensive income of those associates, after adjustments to align the accounting policies with those of the Company, from the date on which significant influence commences until the date on which significant influence ceases. The Company recognizes any changes of its proportionate share in the investee within capital surplus, when an associate's equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in actual proportionate share.

Gains and losses resulting from transactions between the Company and an associate are recognized only to the extent of unrelated Company's interests in the associate.

When the Company's share of losses of an associate equals or exceeds its interests in an associate, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate.

(i) Investment in subsidiaries

When preparing the financial statements, investment in subsidiaries which are controlled by the Company is accounted for using the equity method. Under the equity method, an investment in a subsidiary is initially recognized at cost and adjusted thereafter to recognize the Company's share of profit or loss and other comprehensive income of the subsidiary as well as the distribution received. The Company also recognized its share in the changes in the equity of subsidiaries. In subsidiaries which are controlled by the Company is accounted for preparing the consolidated statement by each period.

Changes in a parent's ownership interest in a subsidiary that do not result in the loss of control are accounted for within equity.

- (j) Property, plant and equipment
  - (i) Recognition and measurement

Items of property, plant and equipment are measured at cost, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only it is probable that the future economic benefits associated with the expenditure will flow to the Company.

(iii) Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

- 1) Buildings and structures: 5 to 55 years
- 2) Machinery and equipment: 2 to 10 years
- 3) Other equipment: 3 to 5 years

Depreciation methods, useful lives, and residual values are reviewed at each reporting date and adjusted if appropriate.

#### (k) Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(i) As a leasee

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- there is a change in future lease payments arising from the change in an index or rate;
- there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee; or
- there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset, or
- there is a change of its assessment on whether it will exercise a extension or termination option; or
- there is any lease modification

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Company accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Company presents right-of-use assets that do not meet the definition of investment and lease liabilities as a separate line item respectively in the statement of financial position.

If an arrangement contains lease and non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings in which it is a lessee, the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Company has elected not to recognize right-of-use assets and lease liabilities for shortterm leases of other equipment that have a lease term of 12 months or less and leases of lowvalue assets. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

#### (ii) As a lessor

When the Company acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Company applies IFRS15 to allocate the consideration in the contract.

- (l) Intangible assets
  - (i) Recognition and measurement

Goodwill arising on the acquisition of subsidiaries is measured at cost, less accumulated impairment losses.

Expenditure on research activities is recognized in profit or loss as incurred.

Development expenditure is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Company intends to, and has sufficient resources to, complete development and to use or sell the asset. Otherwise, it is recognized in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost, less accumulated amortization and any accumulated impairment losses.

Other intangible assets that are acquired by the Company and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

#### (iii) Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use.

The intangible assets of the Company is trade marks and computer software, the estimated useful life was three to five years.

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

#### (m) Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units (CGUs). Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

#### (n) Revenue recognition

(i) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer. The Company recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Company's main types of revenue are explained below.

1) Sale of goods

The Company manufactures and sells electronic components. The Company recognizes revenue when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Company has objective evidence that all criteria for acceptance have been satisfied.

A receivable is recognized when the goods are delivered as this is the point in time that the Company has a right to an amount of consideration that is unconditional.

2) Financing components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

#### (ii) Contract costs

1) Incremental costs of obtaining a contract

The Company recognizes as an asset the incremental costs of obtaining a contract with a customer if the Company expects to recover those costs. The incremental costs of obtaining a contract are those costs that the Company incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained. Costs to obtain a contract that would have been incurred regardless of whether the contract was obtained shall be recognized as an expense when incurred, unless those costs are explicitly chargeable to the customer regardless of whether the contract is obtained.

The Company applies the practical expedient to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the entity otherwise would have recognized is one year or less.

2) Costs to fulfill a contract

If the costs incurred in fulfilling a contract with a customer are not within the scope of another standard (for example, IAS 2 Inventories, IAS 16 Property, Plant and Equipment or IAS 38 Intangible Assets), the Company recognizes an asset from the costs incurred to fulfill a contract only if those costs meet all of the following criteria:

- the costs relate directly to a contract or to an anticipated contract that the Company can specifically identify;
- the costs generate or enhance resources of the Company that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and
- the costs are expected to be recovered.

General and administrative costs, costs of wasted materials, labor or other resources to fulfill the contract that was not reflected in the price of the contract, costs that relate to satisfied performance obligations (or partially satisfied performance obligations), and costs for which the Company cannot distinguish whether the costs relate to unsatisfied performance obligations or to satisfied performance obligations (or partially satisfied performance obligations), the Group recognizes these costs as expenses when incurred.

(o) Government grants

The Company recognizes an unconditional government grant in profit or loss as other income when the grant becomes receivable. Other government grants related to assets are initially recognized as reduction of assets at fair value if there is reasonable assurance that they will be received and the Company will comply with the conditions associated with the grant; they are then recognized in profit or loss as reduction of depreciation on a systematic basis over the useful life of the asset. Grants that compensate the Company for expenses or losses incurred are recognized in profit or loss on a systematic basis in the periods in which the expenses or losses are recognized.

- (p) Employee benefits
  - (i) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

(ii) Defined benefit plans

The Company's net obligation in respect of defined benefit plans is calculated separately for each the plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(q) Income taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

The Company has determined that interest and penalties related to income taxes, including uncertain tax treatment, do not meet the definition of income taxes, and therefore accounted for them under IAS37.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes are recognized except for the following:

- temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and at the time of the transaction (i) affects neither accounting nor taxable profits (losses) and (ii) does not give rise to equal taxable and deductible temporary differences;
- (ii) temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- (iii) taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if the following criteria are met:

- (i) The Company has a legally enforceable right to set off current tax assets against current tax liabilities; and
- (ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
  - 1) the same taxable entity; or
  - 2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.
- (r) Earnings per share

The Company discloses the Company's basic and diluted earnings per share attributable to ordinary shareholders of the Company. Basic earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding. Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding after adjustment for the effects of all potentially dilutive ordinary shares, such as convertible bonds and employee compensation.

(s) Operating segment

The Company discloses the operating segment information in the consolidated financial statements. Therefore, the Company does not disclose the operating segment information in the parent company only financial statements.

#### (5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty

In preparing these parent-company-only financial statements, management has made judgments and estimates about the future, including climate-related risks and opportunities, that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis and are consistent with the Company's risk management and climate-related commitments where appropriate. Revisions to estimates are recognized prospectively in the period of the change and future periods.

Information about judgments made in applying accounting policies do not have significant effects on the amounts recognized in the financial statement.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year is as follows. Those assumptions and estimation have been updated to reflect the impact of economic uncertainties:

• Valuation of inventories

As inventories are stated at the lower of cost or net realizable value, the Company estimates the net realizable value of inventories for obsolescence and unmarketable items at the end of the reporting period and then writes down the cost of inventories to net realizable value. The valuation of the inventoy is mainly determined basing on the demand of products in the future. Due to the rapid industrial transformation, there may be significant changes in the net realizable value of inventories. Refer to note 6(f) for further description of the valuation of inventories.

#### (6) Explanation of significant accounts

(a) Cash and cash equivalents

	Dec	ember 31, 2024	December 31, 2023		
Cash	\$	1,096	535		
Demand deposits		189,779	267,234		
Time deposits		40,102	30,289		
	\$	230,977	298,058		

Please refer to note 6(v) for credit risk and market risk information of the financial assets of the Company.

(b) Financial assets at fair value through profit or loss

	Dec	ember 31, 2024	December 31, 2023
Mandatorily measured at fair value through profit or loss – current:			
Non-derivative financial assets			
Funds	\$	5,819	4,783
Foreign corporate bonds		18,382	11,861
Financial assets designated at fair value thorough profit or loss:			
Preferred stock listed on foreign markets		574	306
	\$ <u></u>	24,775	16,950

- (i) For credit risk and market risk information, please refer to note 6(v).
- (ii) The financial assets were not collateralized.
- (c) Notes and accounts receivable

	Dec	December 31, 2023	
Notes receivable	\$	4,023	3,562
Accounts receivable		628,943	550,019
Accounts receivable-related parties		24,531	33,177
Subtotal		657,497	586,758
Less: loss allowance		(4,514)	(4,514)
	\$	652,983	582,244

The Company applies the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all receivables. To measure the expected credit losses, notes and accounts receivables have been grouped based on shared credit risk characteristics and the days past due, as well as the incorporated forward looking information. The loss allowances for notes and accounts receivable of the Company were determined as follows:

	<b>December 31, 2024</b>				
	Weighted- Gross carrying average loss amount rate			Loss allowance provision	
Current	\$	617,811	0.08%	492	
Overdue 1~30 days		33,098	3.63%~10.81%	1,467	
Overdue 31~90 days		5,217	20.02%~76.13%	1,206	
Overdue 91~180 days		446	94.99%	424	
Overdue more than 366 days		925	100%	925	
	\$	657,497		4,514	

		December 31, 2023						
			Weighted-					
	Gross carrying average loss amount rate			Loss allowance provision				
Current	\$	559,468	0.09%	1,266				
Overdue 1~30 days		19,758	3.53%~9.86%	923				
Overdue 31~90 days		6,523	19.02%~80.23%	1,316				
Overdue 91~180 days		1	94.81%	1				
Overdue 181~365 days		83	100%	83				
Overdue more than 366 days		925	100%	925				
	\$	586,758		4,514				

The movements in the allowance for notes and accounts receivable were as follows:

	,	2024	2023
Beginning at January 1 (at December 31)	\$	4,514	4,514

As of December 31, 2024 and 2023, the notes and accounts receivable were no pledged as collateral for borrowings.

### (d) Other receivables

	December 31, 2024		December 31, 2023	
Other receivables	\$	352	378	
Other receivables – related parties		36,860	144,491	
Subtotal		37,212	144,869	
Less: loss allowance		-		
	\$	37,212	144,869	

As of December 31, 2024 and 2023, the other receivable were no overdue and no pledged as collateral for borrowings.

#### (e) Inventories

(i) The details of inventories were as follows:

	December 31, 2024		December 31, 2023	
Finished goods	\$	2,367	2,881	
Work in progress		2,464	1,281	
Supplies		32	118	
Merchandise		76,973	68,930	
	\$	81,836	73,210	

(ii) Except for cost of goods sold, the gains or losses which were recognized as operating cost were as follows:

	2024	2023
Losses (gains) on valuation of inventories and obsolescence \$	8,000	(710)
Loss on obsolescence	3,282	3,142
Unallocated production overheads	475	1,061
Gains from disposal of scraps	(309)	(579)
Gains on inventory count	(67)	(33)
\$	11,381	2,881

- (iii) As of December 31, 2024 and 2023, the inventories were not pledged as collateral for borrowings.
- (f) Investments accounted for using equity method (credit balance)

A summary of the Company's financial information for investments accounted for using the equity method (credit balance) at the reporting date is as follows:

	December 31,	December 31,	
	2024	2023	
Subsidiaries	\$ <u>3,991,903</u>	3,427,948	
Subsidiaries	\$ <u> </u>	(3,842)	

Please refer to the consolidated financial statements for the year ended December 31, 2024.

- (i) The Company participated in the cash capital increase of Cvilux Korea Corp. in April 2024, with a new investments of \$19,239 thousand, according to its shareholding ratio.
- (ii) The Company participated in the cash capital increase of Cvilux LAO Co., Ltd. in January 2024, with a new investments of \$144,891 thousand, to acquire 46% of the shareholdings, resulting in its capital surplus to increase by \$40,121 thousand, which was not recognized based on its shareholding ratio.
- (iii) The Company acquired 100% of the shares of Cvilux Vietnam Co., in April 2024, with a new investment of \$32,595 thousand.
- (iv) Pledge

As of December 31, 2024 and 2023, the Company did not provide any investment accounted for using equity method as collaterals for its loans.

### (g) Property, plant and equipment

(i) The movements were as follows:

Cost or deemed cost:		Land	Building and structure	Machinery and equipment	Other equipment	Unfinished construction	Total
Balance at January 1, 2024	\$	90,472	118,097	122,532	34,417	_	365,518

Range of interst rate		2.37%	1.73%~2.245%
Maturity year		116/8/27	114/10/31~116/8/27

As of December 31, 2024, the remaining balances of the borrowing due were as follows: (i)

Year due	A	mount
114.1.1~114.12.31	\$	8,740
115.1.1~115.12.31		8,949
116.1.1~116.12.31		6,085
	\$	23,774

#### Pledge for loan (ii)

The collateral for these long term borrowings, please refer to note 8.

### (m) Bonds payable

The details of bonds payable were as follows:

	De	cember 31, 2024	December 31, 2023
Total convertible corporate bonds issued	\$	-	500,000
Less: unamortized discounted corporate bonds payable		-	(4,817)
cumulative converted amount		-	(100)
Subtotal		-	495,083
Less: current portion		-	(495,083)
Corporate bonds issued balance at year-end	<u></u>	-	
Equity components-conversion options (included in capital surplus-share options)	\$	_	43,757
		2024	2023
Embedded derivative instruments call rights, (included net losses in financial assets at fair value through profit or loss)	\$	-	<u>(50</u> )
Interest expenses	\$	3,271	6,427

On October 21, 2021, the Company issued the fourth unsecured domestic convertible bonds amounting to \$500,000 thousand, with major terms as follows:

- (i) Coupon rate: 0%.
- (ii) Maturity date: three years (with the maturity date on October 21, 2024)
- (iii) Method of repayment: Except for early redemption and conversion, the Company should repay its convertible bonds in cash upon maturity.
- (iv) Redemption method: The Company may redeem its bonds from a creditor if it meets one of the following criteria:
  - 1) If the closing price of the Company's ordinary shares listed on the Taipei Exchange exceeded 30% of the conversion price for 30 consecutive business days within the period between 3 months after the date of issuance and 40 days before the maturity date, the Company may redeem its entire convertible bonds outstanding at par value in cash.
  - Upon creditor's request to convert the bonds, if the total amount of unconverted bonds for the period is less than 10% of the total amount of the bonds issued for the period between 3 months after the issuance of convertible bonds and 40 days before the maturity date, the Company may redeem the bonds at par value in cash.
- (v) Terms of conversion
  - 1) After 3 months from the date of issue, the holders of the above-mentioned convertible bonds may convert their bonds into ordinary shares in accordance with the conversion method stipulated by the Company.
  - 2) Pricing of convertible bonds:

Although the conversion price at the time of issuance was \$42.2, the conversion price may be adjusted according to the formula prescribed in the conversion method in the event of a change in the Company's ordinary shares or a re-issuance of the conversion rights of the ordinary shares at a conversion price below the current price per share after the corporate bonds have been issued.

The conversion price of the Company's 4th domestic convertible bonds on September 15, 2023 amounted to \$37.65 per share. As of December 31, 2024 and 2023, the Company's the fourth unsecured domestic convertible bonds, with the accumulated face values of \$499,800 thousand and \$100 thousand, had been converted into 13,322 thousand ordinary shares and 3 thousand ordinary shares, respectively.

(vi) The abovementioned convertible corporate bonds were due on October 21, 2024, and the remaining unconverted corporate bonds were fully repaid by the Company in cash, at a par value of \$200 thousand, upon maturity in accordance with the conversion terms.

#### Lease liabilities (n)

The carrying amounts of lease liabilities were as follows:

	Dec	ember 31, 2024	December 31, 2023	
Current	\$	409	1,928	
Non-current	\$	167	3,214	

For the maturity analysis, please refer to note 6(v).

The amounts recognized in profit or loss were as follows:

	 2024	2023
Interest expense on lease liabilities (recorded under finance		
costs)	\$ 19	72
Expenses relating to short-term leases	\$ 124	92
Expenses relating to leases of low-value assets	\$ 48	48

The amounts recognized in the statement of cash flows by the Company were as follows:

	2	2024	2023
Total cash outflow for leases	\$	1,190	2,126

**Buildings** leases (i)

> The Company leases buildings for its plants, office space and retail stores. The leases of office space and retail stores typically run for a period of 5 to 6 years. Some leases include an option to renew the lease for an additional period of the same duration after the end of the contract term.

> The Company also leases staff dormitories and other equipment with contract terms of one years. These leases are short-term and leases of low-value items. The Company has elected not to recognize right-of-use assets and lease liabilities for these leases.

- Employee benefits (0)
  - Defined benefit plans (i)

Reconciliation of defined benefit obligation at present value and plan asset at fair value were as follows:

	Dec	ember 31, 2024	December 31, 2023
Present value of the defined benefit obligations	\$	79,569	97,879
Fair value of plan assets		(26,531)	(24,574)
Net defined benefit liabilities	\$	53,038	73,305

The Company makes defined benefit plan contributions to the pension fund account with Bank of Taiwan that provides pensions for employees upon retirement. Plans (covered by the Labor Standards Law) entitle a retired employee to receive retirement benefits based on years of service.

1) Composition of plan assets

3)

The Company allocates pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor. With regard to the utilization of the funds, minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks.

As of December 31, 2024, the balance of the employee pension reserve account with Bank of Taiwan amounted to \$20,610 thousand and the balance of pension account for executive officers amounted to \$5,921 thousand. For information on the utilization of the labor pension fund assets, including the asset allocation and yield of the fund, please refer to the website of the Bureau of Labor Funds, Ministry of Labor.

#### 2) Movements in present value of the defined benefit obligations

Fair value of plan assets at December 31

		2024	2023
Defined benefit obligations at January 1	\$	97,879	95,536
Current Service costs		2,189	2,127
Current Service interst cost		1,399	1,472
Remeasurements gain		(1,235)	555
Benefits paid		(20,663)	(1,811)
Defined benefit obligations at December 31	\$ <u></u>	79,569	97,879
Movements of defined benefit plan assets			
		2024	2023
Fair value of plan assets at January 1	\$	24,574	24,125
Expected return on plan assets		399	421
Remeasurements gain			
-Return on plan assets excluding interest income		1,402	(53)
Contributions paid by the employer		2,544	1,892
Benefits paid		(2,388)	(1,811)

24,574

\$<u>26,531</u>

4) Movements of the effect of the asset ceiling

For the years ended December 31, 2024 and 2023, there were no movements in the effect of plan assets ceiling.

. . . .

5) Expenses recognized in profit or loss

 2024	2023
\$ 2,189	2,127
1,399	1,472
 (399)	(421)
\$ 3,189	3,178
2023	2023
\$ 319	318
 2,870	2,860
\$ 3,189	3,178
\$ <u></u>	\$ 2,189 1,399 (399) \$ 3,189 2023 \$ 319 2,870

6) The remeasurement of the not defined benefit liabilities recognized in other comprehensive income.

	 2024	2023
Balance at January 1	\$ (25,625)	(25,017)
Recognized during the period	 2,637	(608)
Balance at December 31	\$ (22,988)	(25,625)

7) Actuarial assumptions

The principal actuarial assumptions at the reporting date were as follows:

	December 31,	December 31,	
	2024	2023	
Discount rate	2.000 %	1.625 %	
Future salary rate increase	3.000 %	3.000 %	

The expected allocation payment to be made by the Company to the defined benefit plans for the one-year period after the reporting date of 2024 is \$1,865 thousand.

The weighted-average lifetime of the defined benefits plans for the year ended December 31, 2024 is 12.09 years.

- - - -

8) Sensitivity analysis

When calculating the present value of the defined benefit obligations, the Company uses judgments and estimations to determine the actuarial assumptions for each measurement date, including discount rates and future salary changes. Any changes in the actuarial assumptions may significantly influence the amount of the defined benefit obligations.

If the actuarial assumptions had changed, the impact on the present value of the defined benefit obligation shall be as follows:

	Impact on defined benefit obligations		
	Increased 0.25%	Decreased 0.25%	
December 31, 2024			
Discount rate	(1,319)	1,365	
Future salary increasing rate	1,318	(1,281)	
December 31, 2023			
Discount rate	(1,504)	1,557	
Future salary increasing rate	1,502	(1,461)	

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown above. The method used in the sensitivity analysis is consistent with the calculation of pension liabilities in the balance sheets.

There is no change in the method and assumptions used in the preparation of sensitivity analysis for 2024 and 2023.

(ii) Defined contribution plans

The Company allocate 6% of each employee's monthly wages to the labor pension personal account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under these defined contribution plans, the Company allocates a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligation.

The pension cost incurred from the contributions to the Bureau of the Labor Insurance amounted to \$5,881 thousand and \$6,119 thousand for the years ended December 31, 2024 and 2023, respectively.

#### (p) Income taxes

(i) The components were as follows:

	 2024	2023
Current tax expenses		
Current period	\$ (33,322)	(43,830)
Adjustment for prior periods	 1,928	501
	 (31,394)	(43,329)
Deferred tax expense		
Origination and reversal of temporary differences	 (61,613)	(26,515)
Income tax expenses	\$ (93,007)	(69,844)

The amounts of income tax recognized in other comprehensive income were as follows:

	2024	ł	2023
Remeasurement from defined benefit plans	\$	(527)	122

Reconciliation of income tax expense and income before tax were as follows.

		2024	2023
Income before tax	<u>\$</u>	431,515	287,753
Income tax using the Company's domestic tax rate	\$	(86,303)	(57,550)
(Loss) gain on domestic investments		(2,594)	36
Additional tax on unappropriated earnings		(549)	(6,870)
Adjustment for perior periods		1,928	501
Others		(5,489)	(5,961)
	\$	(93,007)	(69,844)

- (ii) Deferred tax assets and liabilities
  - 1) Unrecognized deferred tax assets and liabilities

The consolidated entity is able to control the timing of the reversal of the temporary differences associated with investments in subsidiaries. Also, management considers it probable that the temporary differences will not reverse in the foreseeable future. Hence, such temporary differences are not recognized under deferred tax liabilities. Details are as follows:

	Dec	ember 31, 2024	December 31, 2023
Unrecognized deferred tax liabilities:			
Aggregate amount of temporary differences			
related to investments in subsidiaries	\$	289,125	289,071

#### 2) Recognized deferred tax assets and liabilities

Changes in the amount of deferred tax assets and liabilities were as follows:

				Allowance for		
		efined	Deferred	obsolete		
	Ben	efit Plan	Losses	inventories	Others	Total
Deferred tax assets:						
Balance at January 1, 2024	\$	14,693	4,504	9,787	538	29,522
Recognized in profit or loss		(3,526)	739	1,600	(47)	(1,234)
Recognized in other comprehensive income		(527)				(527)
Balance at December 31, 2024	\$	10,640	5,243	11,387	491	27,761
Balance at January 1, 2023	\$	14,314	3,096	9,929	849	28,188
Recognized in profit or loss		257	1,408	(142)	(311)	1,212
Recognized in other comprehensive income		122	-			122
Balance at December 31, 2023	\$	14,693	4,504	9,787	538	29,522

Deferred tax liabilities:		<u> </u>		
Balance at January 1, 2024	\$	298,624	7,940	306,564
Recognized in profit or loss		54,733	5,646	60,379
Balance at December 31, 2024	<u>\$</u>	353,357	13,586	366,943
Balance at January 1, 2023	\$	269,905	8,932	278,837
Recognized in profit or loss		28,719	(992)	27,727
Balance at January 1, 2023	\$	298,624	7,940	306,564

#### (iii) Assessment

The Company's income tax returns for all years through 2022 were assessed by the tax authorities.

#### (q) Capital and other equity

(i) Ordinary shares

As of December 31, 2024 and 2023, the Company's authorized share capital consisted of \$1,000,000 thousand shares of ordinary shares, with par value of \$10 per share, and the paid-in capital amounted to \$922,784 thousand and \$789,561 thousand, of which 92,278 thousands shares and 78,956 thousands shares, where issued. All issued shares were paid up upon issuance.

In 2024, due to the exercise of conversion rights by holders of convertible bonds, the Consolidated Companies issued 13,322 thousand new shares at par value, totaling 133,223 thousand. In 2023, due to the exercise of conversion rights by holders of convertible bonds, the Consolidated Companies issued 3 thousand new shares at par value, totaling 27 thousand.

#### (ii) Capital surplus

	Dec	ember 31, 2024	December 31, 2023
Cash subscription in excess of par value of shares	\$	1,336	1,336
Additional paid-in capital from bond conversion		967,089	558,402
Stock options		-	43,757
Difference between actual acquiring or disposing subsidiary's equity and carrying amount		4,660	4,660
Changes in equity of associates and joint ventures accounted for using equity method		57,161	7,057
Other		46	17
	\$	1,030,292	615,229

According to the R.O.C. Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring capital surplus in excess of par value should not exceed 10% of the total common stock outstanding.

(iii) Retained earnings

The Company's articles of incorporation stipulate that the Company's net earnings should first be used to offset the prior years'deficits, if any, before paying any income taxes. Of the remaining balance, 10% is to be appropriated as legal reserve. In addition, special reserve shall be appropriated according to related regulations, and then any remaining profit together with any distributable earnings shall be distributed according to the distribution plan proposed by the Board of Directors and submitted to the shareholders' meeting for approval.

In accordance with the provisions of the preceding Article, Item 5 of Article 240 and Item 1 of Article 241 of the Company Act, the distributable dividends and bonuses, in whole or in part, may be paid in cash after a resolution has been adopted by a majority vote at a board meeting attended by two thirds of the total number of directors; thereafter, to be reported at the shareholders' meeting.

According to the Company's dividend policy, taking into account the future capital and investment requirement, foreign and domestic competition, as well as shareholders' interests, the profit sharing for shareholders shall not be lower than 15% of the total distributable dividends for the year.

Dividends for shareholders may be distributed in stocks or cash, however the cash dividends shall not be less than 10% of the total dividends.

1) Legal reserve

According to the Company Act, a company should provide 10% of its after tax net profit as Legal reserve until it is equal to its capital. If a company has no accumulated deficit, it may, pursuant to a resolution approved by the stockholders, distribute its legal reserve by issuing new shares or distributing cash for the portion in excess of 25% of the share capital.

2) Special reserve

A portion of current period earnings and undistributed prior period earnings shall be reclassified as a special reserve during earnings distribution. The amount to be reclassified should be equal to the current period's total net reduction of other shareholders equity. Similarly, a portion of undistributed prior period earnings shall be reclassified as a special reserve (which does not qualify for earnings distribution) to account for cumulative changes to other shareholders equity pertaining to prior periods. Amounts of subsequent reversals pertaining to the net reduction of other shareholders equity shall qualify for additional distributions.

3) Earnings distribution

Earnings distribution for 2023 and 2022 had been decided by the resolutions adopted at the board meeting held on March 14, 2024 and March 22, 2023, respectively, as follows:

		2023 2022		2023 2022		2023		2
	Amour sha (in do	re	Total amount	Amount per share (in dollar)	Total amount			
Dividends distributed to ordinary shareholders								
Cash	\$	1.23 <b>\$</b>	110,184	2.00	157,907			

On March 13, 2025, the Company's Board of Directors resolved to appropriate the 2024 earnings. These earnings were appropriated as follows:

	2024		
	S	ount per hare dollar)	Total amount
Dividends distributed to ordinary shareholders			
Cash	\$	2.80	258,380

(iv) Other comprehensive income accumulated in reserves, net of tax

Contract liabilities (be included in other non-current liabilities)	<u>\$</u>	6,701	3,071	4,437

For details on notes and accounts receivable (including related parties) and allowance for impairment, please refer to note 6(c).

The amount of revenue recognized for the year that was included in the contract liability balance at the beginning of the period were as follows:

	2024	2023
Revenue recognized	\$ 1,421	2,674

(t) Remuneration to employees and directors

In accordance with the articles of incorporation the Company should contribute  $5\%\sim12\%$  of the profit as employees' remuneration and less than 3% as directors' remuneration when there is profit for the year. However, if the Company has accumulated deficits, the profit should be reserved to offset the deficit. The recipients of shares and cash may include the employees of the Company's affiliated companies who meet certain conditions. The company allocate the remuneration to directors in cash.

The Company estimated its employee remuneration and directors' and supervisors' remuneration based on the net profit before tax, excluding the remuneration to employees, directors and supervisors of each period, multiplied by the percentage of remunerations were expensed under operating costs or operating expenses during 2024 and 2023. The differences between the actual distributed amounts as determined by the Board of Directors and those recognized in the financial statements, if any, shall be accounted for as changes in accounting estimates and recognized in profit or loss in the following year. The numbers of shares to be distributed were calculated based on the closing price of the Company's ordinary shares, one day before the date of the meeting of Board of Directors.

The Company's estimated is as follows:

	2024	2023
Employees' remuneration	\$ 34,807	23,211
Directors' remuneration	 10,490	6,995
	\$ 45,297	30,206

There was no difference between the actual distributed amounts as determined by the Board of Directors and those recognized in the Company's parent-company-only financial statements of the years ended December 31, 2024 and 2023. The related information can be found on Market Observation Post System website.

(v)	Financ	cial	instruments

- (i) Credit risk
  - 1) Credit risk exposure

Interest expense on lease liabilities

As at reporting date, the Company's exposure to credit and the maximum exposure were mainly from:

\$

- The carrying amount of financial assets recognized in the consolidated balance sheet; and
- As of December 31, 2024 and 2023, the financial guarantees, provided by the Company to its, directly or indirectly, fully owned subsidiaries, amounted to \$109,178 thousand and \$198,718 thousand, respectively.

(72)

(11, 297)

(19)

<u>(8,503</u>)

2) Concentration of credit risk

Accounts receivable were due from many customers and regional distributions were decentralized. Therefore, there was no concentration of credit risk. In order to reduce the credit risk of accounts receivable, the Company continually evaluates each customer's financial situation. However, the Company does not require its customers to provide collaterals.

3) Credit risk of receivables

For credit risk exposure of notes and accounts receivable, please refer to note 6(c).

Financial assets at amortized cost includes other receivables. Regarding how the financial instruments are considered to have low credit risk, please refer to note 4(f). All of these financial assets are considered to have low risk, and thus, the impairment provision recognized during the period was limited to 12 months expected losses.

(ii) Liquidity risk

The following table shows the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements:

		Carrying amount	Contractual cash flows	Within 1 year	1-2 years	2-5 years	Over 5 years
December 31, 2024							
Non-derivative financial liabilities							
Short-term borrowings	\$	230,000	231,080	231,080	-	-	-
Notes and accounts payable, other payable (including related parties) and lease liabilities		612,344	612,353	612,184	145	24	-
Long-term borrowings (including current portion)	_	23,774	24,557	9,209	9,209	6,139	
	\$	866,118	867,990	852,473	9,354	6,163	
December 31, 2023							
Non-derivative financial liabilities							
Short-term borrowings	\$	150,000	150,940	150,940	-	-	-
Notes and accounts payable, other payable (including related parties) and lease liabilities		532,429	537,596	534,309	1,625	1,662	-
Long-term borrowings (including current portion)		89,855	93,061	10,187	67,559	15,315	-
Bonds payable (including current portion)	_	495,083	499,900	499,900			
	\$	1,267,367	1,281,497	1,195,336	69,184	16,977	

The Company does not expect that the cash flows included in the maturity analysis to occur significantly earlier or at significantly different amounts.

#### (iii) Currency risk

#### 1) Exposure to currency risk

The Company's significant exposure to foreign currency risk was as follows:

		De	cember 31, 2024		December 31, 2023		
	c	Foreign urrency thousands)	Exchange rate	NTD	Foreign currency (in thousands)	Exchange rate	NTD
Financial assets			_				
Monetary items							
USD	\$	22,208	32.785	728,089	28,107	30.705	863,026
CNY		10,078	4.478	45,129	11,064	4.327	47,874
HKD		1,044	4.222	4,408	1,011	3.929	3,972
EUR		1,834	34.14	62,613	1,151	33.98	39,111
JPY		1,517	0.210	319	1,929	0.217	419
Non-monetary items							
USD		178	32.785	5,845	40	30.705	1,221
LAK		26,683,705	0.00147	39,305	-	-	-
KRW		398,796	0.02246	8,957	-	-	-
Financial liabilities							
Monetary items							
USD		13,797	32.785	452,335	12,875	30.705	395,327
HKD		715	4.222	3,019	474	3.929	1,862
Non-monetary items							
KRW		-	-	-	160,671	0.0239	3,842

#### 2) Sensitivity analysis

The Company's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, accounts receivable, other receivables, financial assets at fair value, financial assets at amortized cost, borrowing, accounts payable and other payables that are denominated in foreign currency. A strengthening (weakening) 5 % of the NTD against the USD, CNY, HKD, EUR, JPY, as of December 31, 2024 and 2023 would have increased (decreased) the net income before tax by \$19,260 thousand and \$27,861 thousand, respectively. The analysis is performed on the same basis for 2023.

#### 3) Foreign exchange gains and losses on monetary items

Since the Company has many kinds of functional currency, the information on foreign exchange gains (losses) (including realized and unrealized portions) on monetary items were disclosed by total amounts:

	 2024	2023	
Foreign exchange gains	\$ 34,789	7,641	

(Continued)

#### (iv) Interest rate risk

Please refer to the notes on liquidity risk management and interest rate exposure of the Company's financial assets and liabilities.

The following sensitivity analysis is based on the exposure to the interest rate risk of derivative and non-derivative financial instruments on the reporting date. Regarding assets with variable interest rates, the analysis is based on the assumption that the amount of assets outstanding at the reporting date was outstanding throughout the year. The rate of change is expressed as the interest rate increases or decreases by 0.5% when reporting to management internally, which also represents the Company management's assessment of the reasonably possible interest rate change.

The interest rate risk is mainly due to the Company's borrowing at variable rates and fair value throught profit or loss at fixed-interest rate. If the interest rate increased (decreased) by 0.5% with all other variable factors remaining constant on the reporting date, the Company's profit loss before tax would increased (decreased) as follows:

	Impact on income (loss) before tax			
	Increase by 0.5%	Decreases by 0.5%		
December 31, 2024	\$ <u>(1,177</u> )	1,177		
December 31, 2023	\$ <u>(3,640</u> )	3,640		

(v) Other market price risk

For the years ended December 31, 2024 and 2023, the sensitivity analyses for the changes in the securities price at the reporting date were performed using the same basis for the profit and loss as illustrated below:

	2024		2023		
Price of securities at the reporting date	Other Comprehensive Income after tax	Net income	Other Comprehensive Income after tax	Net income	
increase 5%	\$ <u> </u>	233	-	191	
decrease 5%	\$ <u> </u>	(233)		(191)	

#### (vi) Fair value of financial instruments

1) Fair value hierarchy

The fair value of financial assets at fair value through profit or loss is measured on a recurring basis. The carrying amount and fair value of the Company's financial assets and liabilities, including the information on fair value hierarchy were as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and the investments in equity instrument that are not quoted in an active market and can not reliably measure at fair value, disclosure of fair value information is not required:

	December 31, 2024					
		Book		Fair v	value

2) Valuation techniques for financial instruments measured at fair value

Non-derivative financial instrument is regarded as being quoted in active market if quoted prices are readily as the fair value.

3) Transfer between Level 1 and Level 2

There were no transfers from Level 2 to Level 1 in 2024 and 2023.

- 4) Reconciliation of Level 3: None.
- (w) Financial risk management
  - (i) Overview

The Company has exposures to the following risks from its financial instruments:

- 1) Credit risk
- 2) Liquidity risk
- 3) Market risk

The following likewise discusses the Company's objectives, policies and processes for measuring and managing the above mentioned risks. For more disclosures about the quantitative effects of these risks exposures, please refer to the respective notes in the accompanying consolidated financial statements.

(ii) Structure of risk management

The Company's Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. The Company's inter-department management and committee, which consists of managers from all departments, is responsible for monitoring the Company's risk management policies and reports regularly to the Board of Directors on its activities.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. The inter-department management and committee are reviewed regularly to reflect change in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Board of Directors and Audit Committee oversee how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risk faced by the Company. The Company's Board of Directors and Audit Committee are assisted in its oversight role by the Internal Audit. The Internal Audit undertakes both regular and adhoc review of risk management controls and procedures, the results of which are reported to the Board of Directors and Audit Committee.

#### (iii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to financial instruments fails to meet its contractual obligations and arises principally from the Company's notes and accounts receivable from the customers and bank deposits.

1) Accounts receivable and other receivable

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. In accordance with the Company's policy for providing loans to others, the Company must analyze an individual customer's credit rating before granting payment terms and credit lines. For a customer rated as high risk, future transactions with that customer shall require an advance payment. Credit limited is offered to each customer as the limit of transaction and is reviewed regularly.

With a broad customer base, the Company's transactions are not concentrated within one single customer, and its sales market are spread in different regions; therefore, there is no concentration of credit risk. Also, the Company mitigates its exposure by regularly evaluating its customers' financial position, taking into account the possibility of collectable accounts receivable and making provision for bad debts, which are within management's expectations.

2) Investments

The exposure to credit risk for the bank deposits is measured and monitored by the Company's finance department. The Company only deals with banks, other external parties, corporate organizations, government agencies and financial institutions with good credit rating. The Company does not expect any counterparty above fails to meet its obligations hence there is no significant credit risk arising from these counterparties.

3) Guarantees

According to the Company's policy, the Company can only provide financial guarantees to an entity, wherein the Company owns 50% of its shares and has business transactions within. As of December 31, 2024 and 2023, the Company has provided guarantees for subsidiaries wherein 100% equity interest was directly or indirectly owned by the Company.

(iv) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it always has sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company manages sufficient cash and cash equivalents so as to cope with its operations and mitigate the effects of fluctuations in cash flows. The Company's management supervised the banking facilities and ensures compliance with the terms of the loan agreements.

The loan was an important source of liquidity for the Company. As of December 31, 2024 and 2023, the Company had unused credit facilities for short-term and long-term loans as follows:

	December 31,	December 31,	
	2024	2023	
Unused bank credit lines	\$ <u>898,000</u>	872,059	

(v) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices, which will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

1) Currency risk

The Company is exposed to currency risk on sales, purchases and borrowings that are denominated in a currency other than the respective functional currencies of the Company entities, primarily the NTD. The currencies used in these transactions are the NTD, EUR, USD, HKD, JPY, VND and RMB. This provides an economic hedge without derivatives being entered into, and therefore, hedge accounting is not applied it these circumstances.

2) Interest rate risk

The Company has borrowed funds at fixed and variable interest rates, wherein the Company is exposed to risks associated with fair value change and cash flow. The Company manages its interest rate risk by maintaining a proper components of fixed interest rate and floating interest rate. Additionally, the Company's short-term loans bear interest at floating rates. The effective rate varies depending on the market interest rate, thereby fluctuating the Company's future cash flow.

3) Other market price risk

The Company is exposed to equity price risk due to the investments in equity securities. This is held for trading. The management of the Company minimizes the risk by holding different investment portfolios. The Company's exposure to equity price risk is mainly due to the equity financial instruments in Taiwan.

#### (x) Capital management

The Board of Directors' policy is to maintain a strong capital base to ensure the confidence of investors, creditors, and the market and to sustain future development of the business.

The Company's debt-to-equity ratio at the reporting date was as follows:

	De	cember 31, 2024	December 31, 2023	
Total liabilities	\$	1,348,782	1,724,507	
Less: cash and cash equivalents		(230,977)	(298,058)	
Net liabilities	\$ <u></u>	1,117,805	1,426,449	
Total equity	\$	3,910,638	3,075,340	
Debt-to-equity ratio		28.58 %	46.38 %	

As of December 31, 2024, there were no changes in the Company's approach to capital management. The decrease in the debt-to-capital ratio of the Company as of December 31, 2024, compared with that of December 31, 2023, was mainly due to the impact of the conversion of bonds payable into equity, resulting in lower total liabilities compared to the previous period.

- (y) Financing activities not affecting current cash flow
  - (i) For right-of-use assets under leases, please refer to note 6(h).
  - (ii) Reconciliation of liabilities arising from financing activities (with non-cash changes) were as follows:

	January 1,		Non-cash	December 31,
	2024	Cash flows	changes	2024
Lease liabilities (current and non-current)	\$5,142	(999)	(3,567)	576
	January 1,		Non-cash	December 31,
	2023	Cash flows	changes	2023
Lease liabilities (current and non-current)	\$ <u>6,838</u>	(1,914)	218	5,142

#### (7) Related-party transactions

(a) Names and relationship with the Company

The followings were entities that had transactions with the Company during the periods covered in the financial statement.

Name of related party	<b>Relationship with the Company</b>
Cvilux USA Corporation (CUC)	Subsidiary
Cvilux Korea Corporation (CKC)	Subsidiary
CVILUX VIETNAM COMPANY LIMITED (Cvilux Vietnam)	Subsidiary (Note)
Cvicloud Corporation (CTT)	Subsidiary
CviMall International Corporation (CMI)	Subsidiary
Cvilux (B.V.I.) Corp. (Cvilux (B.V.I.))	Sub-subsidiary
Cvilux Lao Co., Ltd. (CLC)	Sub-subsidiary
CviLux Technology (Suzhou) Co.,Ltd. (HBC)	Sub-subsidiary

Name of related party	<b>Relationship with the Company</b>
Dongguan Qunhan Electronics Co., Ltd. (DQH)	Sub-subsidiary
CviLux Electronics (Dongguan) Co., Ltd. (CED)	Sub-subsidiary
CviLux Technology (Chongqing) Corporation (CQC)	Sub-subsidiary
CviLux Technology (Shenzhen) Corporation (CTS)	Sub-subsidiary

ALLSOR TECHNOLIGY LIMITED (ALLSOR HK)	The entity's director is the second immediate family member of the chairman of the Company

Note: The Company incorporated CVILUX VIETNAM COMPANY LIMITED during March, 2024 and injected the capital during April, 2024.

#### (b) Significant transactions with related parties

(i) Sales

The amounts of significant sales and outstanding balance by the Company to related parties were as follows:

		2024	
Subsidiary	\$	63,834	50,499
Other related parties	_	5,187	6,267
	\$	69,021	56,766

Items	Type of related party	Dec	ember 31, 2024	December 31, 2023
Accounts receivable	Subsidiary	\$	23,091	31,803
Accounts receivable	Other related parties		1,440	1,374
		\$ <u></u>	24,531	33,177

Except for the payables to, and receivables from, related parties, which had been offset against each other, the payment terms are the same as those of the arm's length transactions.

#### (ii) Purchases

The amounts of significant purchases and outstanding balances by the Company from related parties were as follows:

	2024	2023
Subsidiary-HBC	\$ 427,836	436,750
Subsidiary-CED	581,409	511,372
Subsidiary-CQC	242,666	167,792
Subsidiary-DQH	155,056	141,510
Subsidiary-CLC	123,225	-
Subsidiary-Others	 425	52,037
	\$ 1,530,617	1,309,461

Items	Type of related party	De	cember 31, 2024	December 31, 2023
Accounts payable	Subsidiary-HBC	\$	144,347	126,785
Accounts payable	Subsidiary-CED		168,426	111,231
Accounts payable	Subsidiary-CQC		54,029	50,337
Accounts payable	Subsidiary-DQH		41,297	35,833
Accounts payable	Subsidiary-Cvilux (B.V.I.)		-	46,841
Accounts payable	Subsidiary-CLC		26,847	-
Accounts payable	Subsidiary-Others		447	13,695
		\$	435,393	384,722

Since the items purchased from related parties are not the same with those of other vendors, the purchase price could not be compared. The additional payment terms, which are not significantly different from those offered by other vendors, are offset against the receivables from related parties.

#### (iii) Leases

The Company's rent income from related parties (included in other income) and the outstanding balances were as follows:

As of December 31, 2024 and 2023, the additional information for employee numbers and employee benefits were as follows:

		2024	2023
Employees number		163	178
Directors number without serving concurrently as employees		4	4
Average employee benefit	\$	1,348	1,211
Average employee salary	\$	1,141	1,021
Average adjustment rate of employee salaries		11.75 %	(2.76)%
Supervisor's remuneration	<u></u>		

Directors: Directors (including independent directors) are entitled to remuneration for the performance of their duties, irrespective of the Company's profits or losses; directors' remuneration shall be determined by the board of directors in accordance with the value of their participation in, and contribution to, the operation of the Company, with reference to the industry levels.

Managers and employees: Their remunerations, which comprise their basic salaries, meal allowances and fringe benefits based on their job positions, shall be determined according to their educational background, work experience, individual performance, the "Regulations Governing Management of Salaries and Wages", the" Regulations Governing Distribution of Employee Remuneration", as well as the performance of the Company.

(b) In October 2016, the owner of the Company was prosecuted by the New Taipei District Prosecutors Office for violating the Securities and Exchange Act, by selling LED CHIPS between the 2nd of 2014 and 2015. In November 2019, the owner of the Company was acquitted by the New Taipei District Prosecutors Office. However, in February 2020, the prosecutor filed an appeal regarding the above case to the Taiwan High Court, who sentenced the owner of the Company to a prison term of 1 year and 10 months, in which the owner of the Company disagreed with such decision; hence, filed an appeal to the Supreme Court. The Company engaged a lawyer to handle the case. On January 5, 2024, the Company received a notification from the Supreme Court, stating that the conviction against the Company's responsible party was partially revoked and remanded the case to the Taiwan High Court for retrial. The above case did not have any material impact on the financial and business operation of the Company.

#### ii. Limitation on investment in mainland China:

Unit:NTD in thousand/USD,RMB,HKD in dollar

Accumulated Investment in Mainland China	Investment Amounts Authorized by	Upper Limit on Investment
as of December 31, 2024 (Note 4)	Investment Commission, MOEA (Note 6)	(Note 7)
516,487 (USD 13,280,930 \circ CNY 1,458,724 and HKD 23,058,801)	778,902 (USD19,978,600 \ CNY 1,458,724 and HKD 27,800,000)	2,348,433

Note 1: Since Cvilux Dongguan Changping Electronic Plant, a plant established by Cvilux (B.V.I.) in mainland China who engaged in processing materials provided by customers in accordance with the agreement, is not one of the Group's subsidiaries, it is not deemed as an "investment" as defined in Articles 4 and 6 of the "Regulations Governing the Approval of Investment or Technical Cooperation in mainland China" by the Investment Commission. Therefore, the above information only discloses the name of the plant and its principal business activities.

Note 2: 1. The Company indirectly invested in the company in mainland China through a third region : CONTEC(B.V.I.) Corp. · Cvilux(B.V.I.) Corp. · HICON(B.V.I.) Corp. · 2. The Company indirectly invested in the company in mainland China through Taiwan region.

Note 3: The amount consist of investment gain or loss and carrying values as of December 31, 2024, recognized by the Company which indirectly invested through a third region. The amount was recognized based on audited financial statements.

Note 4: The investment in mainland China was recorded at the exchange rates prevailing at the transaction date. The equity in the earnings (losses) was translated into NTD at the average rates prevailing at the transaction date.

- Note 5: In addition to the accumulated investment in mainland China, the paid-in capital included the asset valuation and capital surplus transferred to common stock.
- Note 6: In addition to the accumulated investment in mainland China, the investment amounts authorized by the Investment Commission, MOEA included the asset valuation and capital surplus transferred to common stock, with the exchange rate of USD : NTD = 1 : 32.785 ; HKD : NTD = 1 : 4.222 ; CNY : NTD = 1 : 4.478 on December 31, 2024.
- Note 7: The investment amount should not exceed 60% of the net worth of the Company or the Group.

#### iii. Significant transactions

The significant inter-company transactions with the subsidiary in mainland China, which were eliminated in the preparation of consolidated financial statements, are disclosed in "Information on significant transactions".

#### (d) Major shareholders

Shareholding Shareholder's Name	Shares	Percentage
Yangtek Corporation	7,045,000	7.63%

Note : The information on major shareholders, which is provided by the Taiwan Depository & Clearing Corporation, summarized the shareholders who held over 5% of the total non physical common stocks and preferred stocks (including treasury stocks) on the last business date of each quarter. The registered non physical stocks may be different from the capital stocks disclosed in the financial statement due to different calculations basis.

#### (14)Segment information
